Important info from The Arc Wisconsin

As you know, *the House-passed American Health Care Act will cut over \$800 billion from the federal share of Medicaid.* States cannot make up these losses in federal funding. Reimbursements to providers will be cut and people will lose eligibility and/or services. It is critical that the Senators from our state hear from their constituents about how these cuts will impact them. Use this short script to call your Representatives now and ask your friends and family to call.

Every single call matters.
